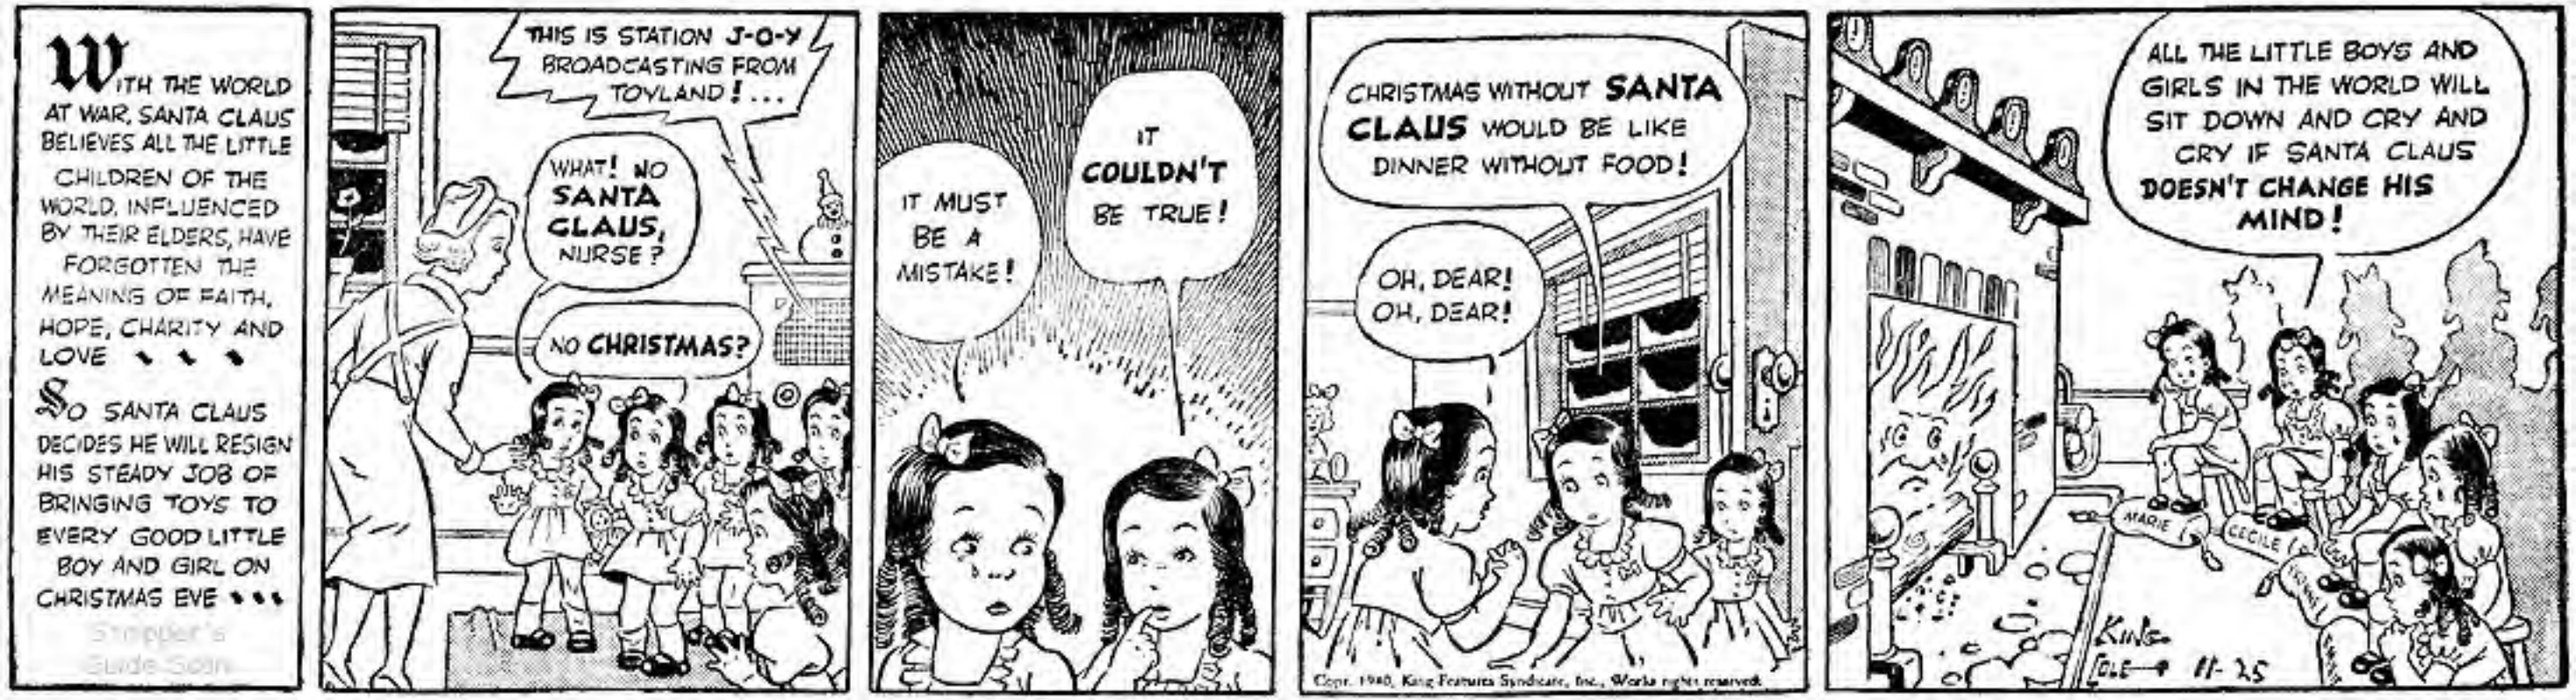
The Quints' Christmas — — — — By Brandon Walsh



With the world at war, Santa Claus believes all the little children of the world, influenced by their elders, have forgotten the meaning of faith, hope, charity and love . . .
So Santa Claus decides he will resign his steady job of bringing toys to every good little boy and girl on Christmas Eve . . .
This is station J-O-Y broadcasting from Toyland! . . .
What! No Santa Claus, nurse?
No Christmas?
It must be a mistake!
It couldn't be true!
Christmas without Santa Claus would be like dinner without food!
Oh, dear! Oh, dear!
All the little boys and girls in the world will sit down and cry and cry if Santa Claus doesn't change his mind!
